

# Shafinaz Shafique

WEB DEVELOPER

[shafinaz2006@gmail.com](mailto:shafinaz2006@gmail.com) | phone: 1.416.856.3892

<https://www.linkedin.com/in/shafi-shafique/>

## SUMMARY

---

- An enthusiastic web developer dedicated to problem solving, ready for new challenges nurturing every opportunity for further learning.
- Over 4 years of experience in Quality Assurance Analysis using Selenium and Unified Functional Testing based on Agile Development Methodologies.
- Quick learner, good written and verbal communication skills in English, equally efficient in managing work load as a single contributor or in a team.

## TECHNICAL QUALIFICATIONS

---

- **Development tools:** HTML5, CSS, SASS, Bootstrap, JavaScript (ES6/7), TypeScript, Figma, React, React Hook, RESTful API, POSTMAN, Node.JS, NPM, Next.js, Express, Passport, JSON, Java, XML, Mongoose, MongoDB, MySQL.
- **Testing tools:** Selenium Webdriver, Unit Testing, TestNG, SOAP UI, and UFT.
- **SDLC tools:** HPQC, JIRA, VS Code, Git, GitHub, Bitbucket, Scrum, Pair Programming.

## EXPERIENCE

---

### ZeMind Gaming Studio, Toronto, Ontario

**Junior Front End (React) Developer,** September 2021 – Current

**Front End Developer Intern** May 2021 – August 2021

- Designing new features by creating reusable components using React.js for web applications and styling components using Styled-Components.
- Researching different styling techniques to fix defects on existing pages by tracking JIRA tickets.
- Using Bitbucket and GitHub as a source repository system to share code within the developers.

### Ontario Public Services, Toronto, Ontario

**Application Programmer Analyst (Automation)** July 2017 – December 2018

- Worked closely with the policy analysts and software developers to understand application design and functionality and navigational flow in a collaborative environment.
- Prepared Automation Test Scripts in UFT, Test cases and Test plans for functional modules following business requirements.
- Efficiently managed and reported more than 100 defects using JIRA and HPQC.

### Ontario Public Services, Toronto, Ontario

**Application Programmer Analyst (Manual)** July 2016 – July 2017

- Coordinated with project manager and development team to formulate test strategy, scope of test effort, test resources required.
- Performed and planned smoke, functional/end-to-end, regression, integration, accessibility and User Acceptance Testing during various phases of the application.
- Analyzed the gap between actual and expected results and reported bugs using JIRA application.

## Tio Networks, Vancouver, BC

---

### QA Analyst

February 2014 – February 2015

- Created SQL queries to perform backend testing and to ensure data integrity.
- Performed Cross browser testing in different versions of Internet explorer, Google Chrome and in Firefox. Tested various mobile apps in iOS and Android environments.
- Used SOAP UI and POSTMAN for Web Services/API testing.
- Actively participated in daily Agile (Scrum) stand-ups.

## GrameenPhone, Dhaka, Bangladesh

---

### System Engineer

August 2007 – December 2008

- Designed microwave links for different regions with various terrains like: hills, rivers and weather conditions like: foggy and stormy, ensuring reliable performance for data transmission using Pathloss tool.
- Operated network management system consisting more than 70 access points, which was very effective in optimizing network congestion.
- Surveyed site with roll out, radio planning and transmission planning teams, and selected the best suitable site from transmission planning end, for establishing new base station to improve network coverage.

## EDUCATION

---

- BrainStation, Toronto, Canada April, 2021  
**Diploma in Web Development**
- University Toronto, Toronto, Canada June, 2016  
**Master of Engineering, Electrical and Computer Engineering**
- Bangladesh University of Engineering & Technology June, 2007  
**Bachelor of Science and Engineering, EEE**

## CERTIFICATION

---

- ISTQB Certified Tester (Foundation Level)
- Entrepreneurship, Leadership, Innovation & Technology in Engineering (**ELITE**) - University of Toronto

## RECENT PROJECTS

---

- **OPEN HOUSE:** A platform for home buyers, sellers and associates related to real estate business.
